21559

Title:

SPATULA DEVICE FOR PERFORMANCE OF

LARYNGOSCOPICAL TREATMENT

Mail Stop Amendment Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

INFORMATION DISCLOSURE STATEMENT

Applicant submits the references listed on the enclosed Form PTO-1449, copies of which are enclosed.

The two references cited and enclosed herein are written in the German language and no English language translations are available.

The first reference, the Kleeman article, is cited in the background of the invention of the above-captioned application on page 1, lines 30-31, and discloses methods showing how, even in difficult cases, a trachea opening might be observed and an intubation might be performed with less risk. It is stated that these methods afford an enormous effort with

respect to apparatuses and practical experience. This reference also describes the general technological background relevant to the present application and describes methods standard in the art for observing a trachea opening and performing an intubation.

The second reference, a third-party letter to the German Patent Office with respect to a related German patent application and attached drawings, discloses a laryngoscope.

The letter alleges that the laryngoscope was publicly available prior to the filing date of the present application. The attached drawings do not include a publication date.

Submission of this statement is not a representation that a search has been made, nor is the inclusion of information in this statement an admission that the information is material to patentability.

This statement is being filed after a first Office Action on the merits, but before the mailing of a final Office Action or a Notice of Allowance. A check for \$180.00 in payment of the late submission fee set forth in 37 C.F.R. § 1.17(p) is enclosed.

If there are any other charges or any credits, please apply them to Deposit Account No. 03-2095.

Data

Respectfully submitted,

Date:

Kristina Bieker-Brady, Ph.D.
